

Teen Pregnancy & Prevention *Partnership*

Teen Pregnancy & Prevention Partnership offers professional bimonthly development and networking meetings in St. Louis and across the state as well as a conference covering various topics, Sexual Health 101 which includes contraception and STI updates as well as creative ways to teach, and our Annual Conference: Complete Information. Better Choices. We advocate for comprehensive, evidence-based sexuality education.

The work, progress, and mission of the Partnership depend heavily on the dedication and commitment from the Partnership Board, committee volunteers, and the participation of individuals within our community, like you! The membership fee for individuals and agency representatives provides financial support for The Partnership's ongoing programming.

The Partnership is excited to invite you and your agency to become members.

Membership is your opportunity to support and be involved in the efforts to prevent teen pregnancy and STIs. Your membership makes you a part of a large community of concerned individuals who are making a positive impact on the prevention of teen pregnancy in Missouri.

Member Benefits:

- Reduced registration rates for all of our trainings
- CEUs for professional development
- Eligibility to serve on the Partnership Board
- Networking and professional development opportunities
- Invitations to partnership sponsored events
- Access to the “members only” section of our website (coming soon) which will feature additional best practices resources, extensive opportunities for networking, and targeted promotion of your community events to our member organizations

Membership with the Partnership means more opportunities to collaborate with other agencies, more “best practices” programs, more resource information, and more updates on current issues; all used toward preventing teen pregnancy throughout Missouri.

Teen pregnancy affects us all, individually, as a community, and as a nation. The United States has the highest rate of teen pregnancy in the industrialized world, rising in 2006 after a long decline. Higher than the national average, the Missouri teen pregnancy rate is 65 per every 1000 teenage girls and the rate of sexually transmitted diseases in teens is among the highest in the nation. Join us in our mission to help prevent teen pregnancy and diseases by improving communication, education, and policies; staying informed; getting involved and raising awareness.

2015 Teen Pregnancy & Prevention Partnership (TPPP) Training Calendar

TPPP holds **Bi-monthly Professional Development Meetings** the 2nd Friday of every other month from 9-11 at Vision for Children at Risk at 2433 N Grand in St. Louis. These are free to 2015 members and \$10 at the door for nonmembers. NO advanced registration required.

National Sexuality Education Standards (NSES) Trainings are offered for a **Sexual Health Educator certificate**. These seven trainings are \$35 each for 2015 members and \$60 each for nonmembers. Advanced registration is required.

Sexual Health 101 is held annually in the fall for adults new to the field or those in need of an update on contraception, STDs, LGBT issues, techniques for teaching teens, and handling parents' concerns. It is \$50 for 2015 members and \$75 for nonmembers. Advanced registration is required.

TPPP's **Annual Conference, Complete Information – Better Choices**, is held each spring with National Keynote speakers and experts from around Missouri who present on topics related to adolescent sexual health. Conference fees are \$75 for 2015 members, \$100 for nonmembers, and \$35 for students. Advanced registration is required.
